Agenda

- PMO General Topics
- Electronic voting proposal
- Javadoc proposal
- JSR ballot comments and Expert Groups

PMO General Topics

The PMO presented its usual general information and statistics to EC Members. Representation changes among EC Members were highlighted and the current PMO staffing and responsibilities were outlined.

Electronic Voting proposal

An EC Member presented a proposal to allow voting on motions via electronic means between EC meetings. The EC discussed among other issues whether efficiency could be gained by voting in between meetings versus only at meetings, whether there should be a requirement that the material upon which such a vote is based has been discussed at a meeting. Further exploration is expected at future meetings.

Javadoc proposal

An EC Member presented a proposal regarding guidelines for Spec Leads and Expert Groups regarding the re-use of javadoc comments from a specification in implementations. The EC discussed the desirability of writing new javadocs vs. quoting the existing javadocs, and how this is handled today.

JSR Ballot comments and Expert Groups

The requesting member for this agenda item was not present.
